

Phone: 775-423-0001

Address: 510 W. Williams Ave.
Fallon, NV 89406

Located right off of Hwy 50
off of Williams Ave and Russell

MEDICAL ONLY

Common Terpenes found in Marijuana

What are terpenes?

Terpenes are the flavor and aroma.

Terpenes have medicinal benefit binding to the cannabinoid receptor similar to cannabinoids like THC or CBD.

Limonene - used in many household and cosmetic products. Limonene is a mood lifter. Helps with acid reflux, anxiety, depression and possibly cancer growth. Benefits include elevated mood, relaxation, and stress relief.

Bisabolol - Mild floral scent with skin healing properties that are found in cosmetic products. Benefits include anti-bacterial, anti-inflammatory, and anti-irritation.

Pinene - Most common cannabis terpene. Pine cone smell and earthy aroma. Benefits include creativity, alertness, focus, and memory retention.

Caryophyllene - This terpene has a spicy peppery flavor and aroma. Found in cloves. Discovered to be the first non-cannabinoid to activate the cannabinoid receptor. Benefits are elevated mood, stress relief, pain relief, anti-inflammatory and relaxation.

Humulene - is a powerful anti-inflammatory and pain reliever. Humulene is also an appetite suppressant.

Myrcene - This terpene helps cannabinoids absorb to the brain. Found commonly in Indica strains, myrcene is great for pain relief, stress, and muscle spasm. Excellent for sleep aid and relaxation.

Terpinolene - Smokey or woody aroma. Benefits are pain relief, sedation, sleep aid, antifungal, and anti-bacterial.

Nevada's Only Medical Dispensary!
Must have valid Medical Marijuana Card with government ID
Accepting out-of-state medical marijuana patients with a valid
medical marijuana card or doctor's recommendation. Must have
passport or matching state ID with medical card.

**Warning: For use by Adults 21 and older.
Keep out of the Reach of Children.**
